

OME Accepts Prestigious 2015 Most Intelligent Corporate Campus IBCON “Digie” Award on Behalf of Client, The Pentagon

Award Recognizes Organizations Impacting the Industry Through the Use of Technology, Automation and Innovation

BALTIMORE (June 16, 2015) - OME, an industry leader in innovative facility automation solutions and intelligent buildings, recently accepted the prestigious Digie Award for “Most Intelligent Corporate Campus” at IBCON 2015, the top industry conference for “smart connected high-performance intelligent buildings.” The Digie Award, which is shorthand for Commercial Real Estate Digital Innovation Awards,

recognizes companies, real estate projects, people and technologies that are going above and beyond to positively impact the industry through the use of technology, automation and innovation. OME accepted the award on behalf of its client, The Pentagon, which OME helped make the most highly secure, mission-critical facility in the world an intelligent campus. OME is a client of St. John Properties, with offices at Maple Lawn.
